

## Developmental Education Course Completion

Math represents – Basic Math and Introduction to Algebra courses

English – English Fundamentals Course

Reading – Reading Improvement Course

1. Only fall terms are represented.
2. Fall 2015 is the implementation of the Co-requisite Remediation Model and it did not include Reading or Basic Mathematics. The Co-requisite remediation model is the combination of highest-level developmental courses with the college level courses in English and mathematics.
3. Data are based on First Time in College Freshman that took at least one developmental course in the subject area and completed the course with a C or better.
