

Relationship Between High School GPA and Student Retention/Persistence/Graduation Rates

- GPAs for a total of 272 high school FTIC – FT/PT students were examined in this 2011 cohort.
- Of the available data 96 students graduated high school with less than a 2.0 GPA and 177 students graduated high school with higher than a 2.0 GPA.
- Term-to-Term Retention and Year-to-Year Persistence are compared in the chart.
- The data combines full-time and part-time students.

- This chart represents graduation rates relative to reported high school GPA scores.
- Only full time students were included in the cohort.

* The UDC-CC graduation rate for the full 2011 cohort (n=237) at 150% of time is 9.87%.
