Land-grant Programs in College of Agriculture, Urban Sustainability and Environmental Sciences

4.1 Land-grant Activities by Land-grant Center

UNIVERSITY OF THE DISTRICT OF COLUMBIA COLLEGE OF AGRICULTURE, URBAN SUSTAINABILITY & ENVIRONMENTAL SCIENCES (CAUSES)

The Land-grant Centers of the College of Agriculture, Urban Sustainability and Environmental Sciences (CAUSES) of the University of the District of Columbia offer research-based community education through workforce development certificates, workshops, and events focused on building economic development capacity to improve the quality of life and economic opportunity of people and organizations in the District of Columbia and beyond.

FY 2018 Land-grant Program Activities

The Land-grant Programs of CAUSES are delivered through five Land-grant Centers and Institutes:

1. Center for Urban Agriculture & Gardening Education
2. Center for Sustainable Development & Resilience; the Water Resources Research Institute
3. Center for Nutrition, Diet & Health; and the Institute of Gerontology
4. Center for 4-H & Youth Development
5. Center for Architectural Innovation & Building Science; and the Architectural Research Institute

The Centers offer diverse services, including applied research, to advance knowledge about local food systems, nutrition, green infrastructure and urban sustainability. The outreach programs of the Centers range from nutrition education in schools, to food safety certification, green business development workshops, assistance with farmers markets and community gardens, and assessment services that determine soil and water quality, lead contamination, and other environmental hazards.

The research and outreach education activities of the UDC Land-grant Centers also benefit students enrolled in the academic programs of the University. Students gain marketable skills through internships and summer employment in the Land-grant Centers, and they enhance their learning experience through active, hands-on training, research collaborations with land-grant specialists, leadership development experiences, and networking opportunities through interactions with local residents and community organizations. The academic programs in CAUSES are offered through two interdisciplinary departments that exemplify our slogan ***Healthy Cities – Healthy People***: (1) Department of Health, Nursing, Nutrition; and (2) Department of Architecture & Urban Sustainability.

Goals of the National Institute of Food & Agriculture (NIFA):

CAUSES receives funding from the National Institute for Food and Agriculture (NIFA) of the United States Department of Agriculture (USDA) to support research and community outreach programs that pursue the following objectives:

1. Combat childhood obesity and other food-related illness
2. Improve food security
3. Improve food safety
4. Mitigate climate change
5. Develop sustainable energy solutions
6. Improve water safety and water management

The Supplemental Nutrition Education Program supports evidence-based nutrition education and obesity prevention initiatives for DC residents who are eligible to receive support through the Supplemental Nutrition Assistance Program (SNAP). The SNAP-Ed program offers complementary education programs, multilevel interventions, and community outreach programs that improve public health through improved nutrition.

Through partnerships, the Center for Nutrition, Diet and Health offers SNAP-Ed programming in preschools, schools and community centers to encourage better eating habits and healthier food choices within a limited household budget. The Center also offers programming to encourage a more physically active lifestyle consistent with the current Dietary Guidelines for Americans. SNAP-Ed programming includes nutrition education workshops, healthy food demonstrations conducted at schools, child development and daycare centers, community centers, churches, summer camps, health clinics and farmers markets. Nutrition education and obesity prevention services focus on topics spanning seven primary educational domains: food safety, vegetables, fruits, whole grains, dairy, protein, and physical activity. Assessment indicators to measure impact include increasing fruit, vegetable, whole grain, and low-fat dairy consumption, increasing frequency of choosing water as a beverage, and increasing physical activity.

The EFNEP program is an integral part of the outreach education of the National Institute of Food and Agriculture (NIFA) of the USDA. EFNEP provides practical, hands-on nutrition education that changes behavior. It focuses on reaching limited resource families and addressing health disparities associated with some of our most pervasive societal challenges – hunger, malnutrition, poverty, and obesity. Through community partnerships, EFNEP teaches a series of evidence-based workshops focused on: basic nutrition principles, cooking, meal planning, food safety, and food resource management. Nutrition workshops are held at schools, community centers, summer camps, residential communities, clinics, and homeless shelters. EFNEP's curriculum is designed to improve participants' knowledge, attitudes, and behaviors necessary to maintain nutritionally sound diets and enhance personal development.
