The CASAS assessment measures an individual's reading comprehension and math skills. Prospective students have one opportunity to take the assessment prior to placement in a WDLL course. The assessment consists of two sections: a reading test and a math test.

To do your best with the assessment, we recommend the following:

- ◆ **Build up your stamina!** Get a good night's sleep and eat a healthy meal before your test.
- ◆ **Be comfortable and relaxed!** Arrive early to the testing location to allow yourself time to relax.
- ◆ **Familiarize yourself with the CASAS test!** CASAS provides the following materials:
 - ◆ Math: <https://www.casas.org/product-overviews/curriculum-management-instruction/sample-test-items/math>
 - ◆ Reading: <https://www.casas.org/product-overviews/curriculum-management-instruction/sample-test-items/life-and-work-reading>
- ◆ **Brush up on your skills!** Research test taking skills. If you've been out of school awhile, research reading comprehension questions, reading charts, and/or math skills such as fractions, decimals, and percentages.
